DANGER

- 1. Vehicles with equipment powered by internal combustion engines and placed in maintenance or storage may cause carbon monoxide poisoning or other hazards, which could result in death or serious injury.
- 2. The fumes from fluids used in greater than normal use can lead to a fire or explosion, which can result in death or serious injury.
- 3. Do not use the vehicle storage area when vehicles are present.
- 4. Do not smoke in the vehicle storage area when vehicles are present.
- 5. Close doors and windows in wake of explosion or incident when any vehicle is present.
- 6. Shut fan air of engine of stored vehicles after shutting off fuel at the tank.
- 7. Do not store, transport, or dispose fuel inside the vehicle.
- 8. Open the windows, openings, or air ventilation systems provided for venting the transportation area when vehicles are present.
- 9. Do not operate propane appliances, pilot lights, or electrical equipment when authorized vehicles are present.
